## About Cardiff Print Workshop

All equipment can be used by CPW members on an open access basis. We at CPW want Artists/ Printmakers to develop their own technical skills and artistic practices whilst also exhibiting and promoting their work as part of the group. CPW is a valuable resource for artists and graduates who otherwise may be unable to continue printmaking.

At CPW we have the facility to etch copper or zinc. Large and medium sized etching presses allow for small or large scale work.

**Cardiff Print Workshop** is a co-operative of artists and printmakers, providing workshop space in Cardiff since 1980. Our Chapter Arts Centre Workshop on Market Road is a showcase for members' print work with changing exhibitions of printmaking on the walls and unframed prints and cards on display.
